

# 1 VERNE

*I dream with my eyes open,  
That's why I decided to come.  
My colleague got in trouble.  
For not being cautious enough.*

*Science is made up of mistakes  
We could all agree on that.  
They will take us to the truth.  
If we follow the right clues.*

*I'm not worried about this adventure  
The unpredictable is quite fun.  
The Earth has revealed its centre  
Only to the bravest of us,  
To the bravest of us.*
